UNITED STATES DISTRICT JUDGE
WESTERN DISTRICT OF NEW YORK

June 25, 1968

The Honorable John O. Henderson
United States District Judge
United States District Court
for the Western District of New York
68 Court Street
Buffalo, New York

Re: Mr. Stefano Magaddino
5118 Dana Drive
Lewiston, New York

Dear Sir:

Mr. Magaddino's complete medical history was reviewed with Dr. Walter T. Zimdahl and Dr. Edwin J. Lenahan on June 17, 1968. On June 19, 1968 at Mount Saint Mary's Hospital in Lewiston, New York, Doctors Zimdahl and Lenahan conducted a detailed and complete physical examination, including an electrocardiogram and chest x-rays.

It was their opinion that there is both clinical and electrocardiographic evidence of severe coronary artery disease with recurrent coronary insufficiency. They also felt that there is reasonable probability that the appearance of Mr. Magaddino for the purpose of giving testimony would and could seriously impair or jeopardize his health. I fully concur with these conclusions.

very truly yours,

Victor L. Pellicano
